

GCA Exhibit 35

NMED Rebuttal Exhibit 23: Proposed 20.2.50.113.C(4)(i):

(i) for emissions testing using a portable analyzer, the results of emissions testing demonstrating compliance with the emission standard for CO may be used as a surrogate to demonstrate compliance with the emission standard for NMNEHC.

The GCA's Suggested Revision to Proposed 20.2.50.113.C(4)(i):

(i) ~~for emissions testing using a portable analyzer,~~ the results of emissions testing demonstrating compliance with the emission standard for CO may be used as a surrogate to demonstrate compliance with the emission standard for NMNEHC.
